A little bit about me

I'm Keerthana Sunder,currently a sophomore from college of Engineering Guindy. My area of interest is in Backend and Android app development with loads of interest in learning new stuffs!

I've studied at:

College Of Engineering Guindy
Computer Science And Engineering
2016-Current
Marks: 92 %

Sri Krishnaswamy Matriculation Higher Secondary School
State Board
-2016
Marks: 98.6 %

Check out projects I've taken up:

Simple Signup Application
Using HTML,CSS and JavaScript

Data structuring
Structuring of data using Python programming language

Bill generation
A supermarket Bill generation using Python programming language

ACHIEVEMENTS

- Have participated in competitive programming contests online and also in symposium events held by various colleges, recently won third prize in Code for the Queens, an event for women programmers.
- Exploring Kotlin for Android apps
- Learning the basics of Cloud computing and ML.. Though not considered as an achievement!
